

Can We Forget The Past?

INTRO: C/G/F/C (2X)

C **G**
Dancing in the midnight choir
F **C**
To that Zydeco band
C **G**
I watched you from the high wire
F **C**
Lookin' for a safe place to land
Am
C
You were swirling alone while the
accordion moaned
Am **C**
And the drummer played so fast
C **G** **F**
C
I thought to myself as we both called for
help
F **G** **C/G/F/C (2X)**
Darlin', can we forget the past?

Deep in the night consumed by the fright
Of desires imagined and real
I can still hear your voice, there's really no
choice,
The wolfhound nips at my heel
I've been too long alone, the church bells
tone
And time slips away so fast
Can we try again, I'll be your best friend
Darlin', can we forget the past?

7/10/88

So many years, desperation and fears
Tears that fit like a glove
So far apart but I knew in my heart
You were sent to me from above
But I trembled and flew from the paradise
view
In your eyes but the view didn't pass
Then I found you again and since it's not
the end
Darlin', can we forget the past?
